

# Fire Sprinkler Protection

Protect your investment by making Oliver Fire Protection & Security your Trusted Partner in Protection with a custom designed Fire Sprinkler system from concept to closeout

Since 1957, Oliver Fire Protection & Security has been your premier choice in fire sprinkler design and installation

New construction or retrofit projects

Oliver's trained professionals will contract, design and install with minimal disruption to your building tenants and staff

Our large and experienced design team utilizes state-of-the-art design technology and provides certified PA, NJ and DE Professional Engineers

Oliver offers peace of mind in a variety of inspection and Maintenance services to make sure your system is always up to code and operating at peak performance

Testimonial

*"I take great pleasure in writing this letter to acknowledge the superior service and professionalism your company has provided throughout our retrofit project. Your coordination allowed for the sprinkler system to be designed and installed within tenant spaces, without any disturbances, an accomplishment that should be commended."*
