

# OLIVER

FIRE PROTECTION & SECURITY

## Warehouses and Distribution Centers

Protect your products, people, properties and reputation by providing Life safety and Security systems for your warehouse and distribution centers

New construction and retrofit projects

Specialized in-Rack Systems to protect multi-tiered storage solutions

Oliver provides state-of-the-art security solutions including 24/7 monitoring, intrusion detection and access control

Our large and experienced design team utilizes state-of-the-art design technology and provides certified PA, NJ and DE Professional Engineers

Since 1957, Oliver Fire Protection & Security has been your premier choice for Fire Safe, Life Secure solutions

### What is an In-Rack Sprinkler System?

Specifically designed for multi-tiered storage areas, in-rack sprinkler systems continuously monitor for fire and release water into targeted areas to minimize damage and downtime. Monitors and extinguishing equipment are integrated into industrial shelving to provide comprehensive protection throughout the entire storage facility
